

# secure auditor

## Audit Report

### Executive summary of vulnerabilities

**Report Generated Time:** 10/13/2011 At 5:33:17PM

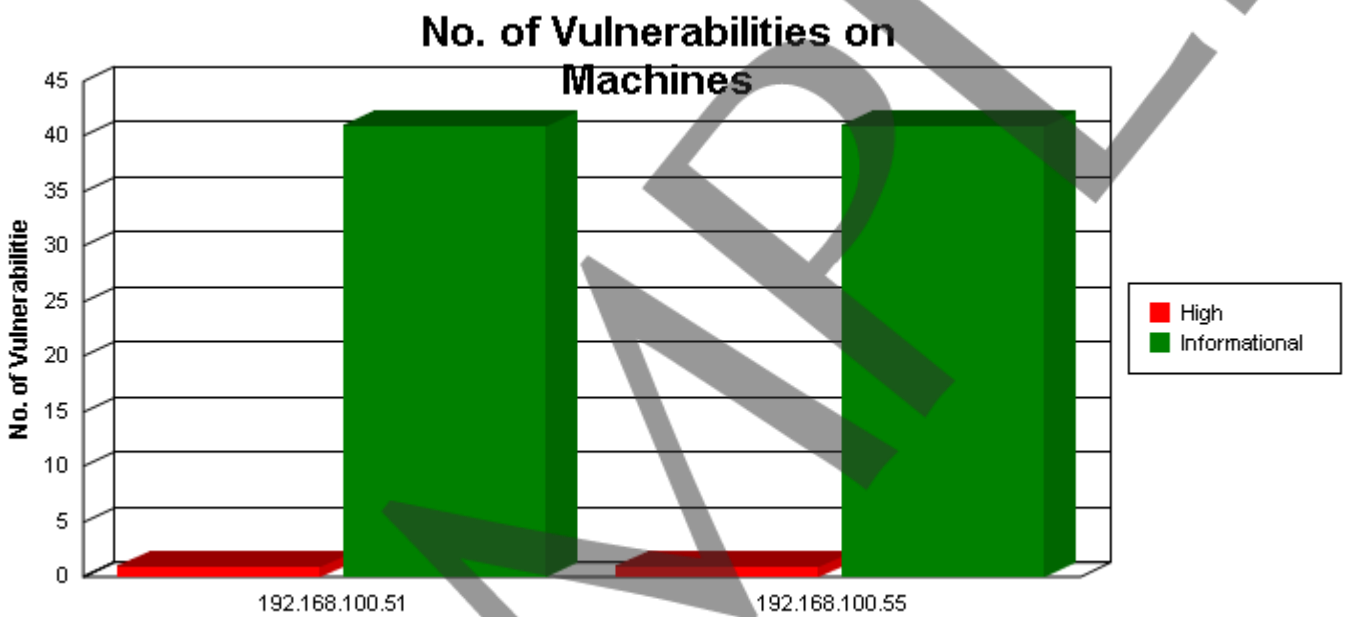

**Audit Name:** : Ora-Audit With Test Profile(Oct. 13 2011 5:28PM)  
**Description:** : Oracle Audit Report  
**IP Count** : 2  
**IPs:** : 192.168.100.51, 192.168.100.55

## Executive summary of vulnerabilities

Report generated on 13-Oct-2011 at 5:33:17PM

Oracle databases are precious ornaments for an organization as most of the information assets are denned there. A security scan was performed on your Oracle database or multiple oracle databases.This audit report will give you a complete picture of your database security pasture. This review was performed on your network for single or multiple IP's with their number of audits regarding to single or multiple databases. This Report shows audit detail for each machine and databases name with port numbers. This report is designed to provide a wide-ranging description of vulnerability found on specific audits performed. You can also review the summarized overview of the vulnerabilities discovered. This report covers the maximum researched and checked information about vulnerability including the aspects, ways and areas sensitive or unsafe and usually takes up by attackers. It is recommended to take a thorough review of the vulnerabilities explored.

## Executive summary of vulnerabilities

Report generated on 13-Oct-2011 At 5:33:17PM

**Database :** orcl  
**Machine IP :** 192.168.100.51  
**Machine Port :** 1521  
**Total Vulnerabilities:** 42

### Number of Vulnerabilities By Risk levels
